MADSEN RELEASED.

Another Convict Freed by Supreme Court Decision.

Judge Hall yesterday afternoon granted a hearing on the application of Christian Madsen to be released from the state prison on a writ of habeas corpus. The prisoner's case was presented by Attorney E. E. Hoffman and Attorney General Breeden declined to oppose the application.

Madsen was sentenced to serve two years in the state prison from Jan. 30, 1800, upon a conviction of shooting Arthur Storrs with intent to kill in Sevier county, but upon a showing that the prosecution was conducted by the district attorney of the Sixth district, instead of by the county attorney of Sevier, the law for which has been declared void by the supreme court. Judge Hall ordered the prisoner released.

"The Relations of the United States and England" is attracting much attention here. It is considered an adroit and friendly summary of American opinion respecting the Nicaraguan canal and a strong appeal to the foreign office for the acceptance of the senate amendments to the new treaty. Copies of the article have been sent to Lord Lansdowne, Arthur Balfour, Joseph Chamberlain and other members of the cabinet and it is hoped that it will exert a marked influence in promoting the settlement of the canal question.
